In summary, can you absolutely, 100%, confirm that the full native 2560 x 1440 resolution at 60 Hz and 30 & / or 24 bit color (i.e. 10 & / or 8 bits per color channel) is possible on the Dell U2711 over an HDMI to HDMI connection? Theoretically it is definitely possible; however, have you actually seen it working correctly?

The O.P. is purely about being able to obtain full (i.e. 2560 x 1440) resolution over an HDMI connection to a U2711. As mentioned above, this is possible via a custom resolution or by manually editing the EDID file (or preferably if Dell would create and issue something to update the EDID file to include 2560 x 1440 as a selectable option).
