In the summer of 1977, a group of people living along the Rocky Mountain Front learned in an outfitters meeting that the U.S. Forest Service planned on issuing leases for oil and gas development up and down the Rocky Mountain Front. That was the day, one might argue, that the seed for the Rocky Mountain Front Heritage Act was sown.

The Rocky Mountain Front is a somewhat unified geologic and ecosystem area in North America where the eastern slopes of the Rocky Mountains meet the plains. In 1983, the Bureau of Land Management called the Rocky Mountain Front "a nationally significant area because of its high wildlife, recreation, and scenic values". Conservationists Gregory Neudecker, Alison Duvall, and James Stutzman have described the Rocky Mountain Front as an area that warrants "the highest of

conservation priorities" bec
