### **Ethics Are More Important Than**

Journalism ethics and standards comprise principles of ethics and of good practice as applicable to the specific challenges faced by journalists. This subset of media ethics is widely known to journalists as their professional "code of ethics" or the "canons of journalism". The basic codes and canons commonly appear in statements drafted by both professional journalism associations and ...

Ethical Decision Making in Research. Although codes, policies, and principals are very important and useful, like any set of rules, they do not cover every situation, they often conflict, and they require considerable interpretation. It is therefore important for researchers to learn how to interpret, assess, and apply various research rules and how to make decisions and to act ethically in ...

In moral philosophy, deontological ethics or deontology (from Greek δέον, deon, "obligation, duty") is the normative ethical theory that the morality of an action should be based on whether that action itself is right or wrong under a series of rules, rather than based on the consequences of the action.. It is sometimes described as duty-, obligation- or rule-based ethics, because rules ...

The discussion of accounting ethics has declined in recent years as the Enron and WorldCom debacles have receded from memory. Furthermore, the perceived excesses and criticism of the Wall Street crowd during the financial crisis has further pushed something as unglamorous as accounting ethics out of the public eye.

Feminist Ethics is an attempt to revise, reformulate, or rethink traditional ethics to the extent it depreciates or devalues women's moral experience. Among others, feminist philosopher Alison Jaggar faults traditional ethics for letting women down in five related ways. First, it shows less concern for women's as opposed to men's issues and interests.

The stock market scam of 1992 is considered one of the worst violations of ethics in the Indian financial industry. Retail investors lost money after the market was manipulated, and it subsequently lost 72 percent of its value. Despite serious consequences and convictions, a similar fraud in which bank and promoter funds were used to manipulate stock prices took place within a

decade.
