The Survivalist lives off a small plot of land hidden deep in forest protecting his crop from intruders with his shotgun and improvised traps. But the long years alone have taken their toll on him ...

The Survivalist (2017) - Rotten Tomatoes

A firestorm is a conflagration which attains such intensity that it creates and sustains its own wind system. It is most commonly a natural phenomenon, created during some of the largest bushfires and wildfires. Although the term has been used to describe certain large fires, the phenomenon's determining characteristic is a fire with its own storm-force winds from every point of the compass.
