Das Kapital Technology and Modernization Quotes Page 1

Marx goes on to explain that it is precisely in those periods when society can no longer develop the productive forces – when science, technology, and industry stagnate; when economic growth, employment, and rising living standards cannot be guaranteed – that revolutions occur, in order to remove the barriers standing in the way of progress:

Technology, innovation, growth, and capitalism

For Marx, technology exemplifies the interaction between human beings and nature. Marx's description of this interaction is in transition throughout his works. An older, humanist and vitalist

paradigm sets the human being against nature as a qualitatively different type of force. A newer ...

Karl Marx Needs His According Each Capitalist production, therefore, develops technology, and the combining together of various processes into a social whole, only by sapping the original sources of all wealth - the soil and the labourer.

Karl Marx Quotes - BrainyQuote

Karl Marx's theory of alienation describes the estrangement (Entfremdung) of people from aspects of their Gattungswesen ("species-essence") as a consequence of living in a society of stratified social classes. The alienation from the self is a consequence of being a mechanistic part of a social class, the condition of which estranges a person from their humanity.
