A port-wine stain (nevus flammeus) is a discoloration of the human skin caused by a vascular anomaly (a capillary malformation in the skin). They are so named for their coloration, which is similar in color to port wine, a fortified red wine from Portugal.. A port-wine stain is vascular malformation, seen at birth. Port-wine stains always persist throughout life.

Port-wine stain - Wikipedia

If you have warts, your doctor will probably start with a couple of standard treatments. She'll give you medicine that makes your warts peel away. Or she may use a super-cold liquid to freeze ...

Laser Surgery for Warts: Types, Procedure, and Recovery

An actinic keratosis (AK) is a small, rough spot occurring on skin that develops because of chronic sun exposure. These small superficial spots are superficial skin cancers that have not invaded the deeper layers of the skin. Actinic keratoses characteristically appear on photo-damaged skin.
