In colorimetry, the Munsell color system is a color space that specifies colors based on three properties of color: hue, value (), and chroma (color purity). It was created by Professor Albert H. Munsell in the first decade of the 20th century and adopted by the United States Department of Agriculture (USDA) as the official color system for soil research in the 1930s.

Occlusion, in a dental context, means simply the contact between teeth. More technically, it is the relationship between the maxillary (upper) and mandibular (lower) teeth when they approach each other, as occurs during chewing or at rest.. Static occlusion refers to contact between teeth when the jaw is closed and stationary, while dynamic occlusion refers to occlusal contacts made when the ...

Occlusion (dentistry) - Wikipedia

The Indian Dental Association is an authoritative, independent and recognised voice of dental professionals in India.
