

## *Strategies To Chess*

**Strategies To Chess**

Here we are discussing some basic strategies that can give you advantage, however microscopic it may be. Of course there is always exception to the rules, but exceptions occur much less frequently than the normal situations, don't they? These strategies are described from white's point of view, so what is good for white is bad for black and vice versa.

Chess is a popular 2-player strategy game thought to have originated in India many centuries ago. To win the game, you must put the other player in "checkmate" by moving your pieces so their king would get captured. Although it has a set of easily comprehended rules, it takes strategy in order to defeat a skilled opponent.
