In February, the United States and several other countries celebrate black history. In the United States, this time is also called African American History Month.

Say African American or Black, but first acknowledge the ...

Urban sociology is the sociological study of life and human interaction in metropolitan areas. It is a normative discipline of sociology seeking to study the structures, environmental processes, changes and problems of an urban area and by doing so provide inputs for urban planning and policy making. In other words, it is the sociological study of cities and their role in the development of ...

The Death and Life of Great American Cities is a 1961 book by writer and activist Jane Jacobs. The book is a critique of 1950s urban planning policy, which it holds responsible for the decline of many city neighborhoods in the United States. Going against the modernist planning dogma of the era, it proposes a newfound appreciation for organic urban vibrancy in the United States.

House by the Railroad (1925) Museum of Modern Art, New York. By Edward Hopper. American Scene Painting (c.1925-45) American Scene Painting is a vague term which describes a style of realism which grew up in the United States during the late 1920s, 30s and 40s, and which was marked by its use of specifically American imagery. . The aim of this school of American art was to chronicle, if not ...

American Scene Painting, Urban Realism Art Movement

In everyday use, the word "theory" often means an untested hunch, or a guess without supporting evidence. But for scientists, a theory has nearly the opposite meaning. A theory is a well-substantiated explanation of an aspect of the natural world that can incorporate laws, hypotheses and facts. The ...

A comprehensive and accessible introduction to the field transportation geography with a broad overview of its concepts, methods and areas of application. Includes a wide variety of media elements such as maps, figures and PowerPoint presentations.

The Geography of Transport Systems

Human evolution is the evolutionary process that led to the emergence of anatomically modern humans, beginning with the evolutionary history of primates—in particular genus *Homo*—and leading to the emergence of *Homo sapiens* as a distinct species of the hominid family, the great apes. This process involved the gradual development of traits such as human bipedalism and language, as well as ...

Presentations look across the American Memory collections to investigate curricular themes. They include historical background, helping to tell the story behind the theme. Activities offer an interactive, "hands on" experience and focus on a specific topic, rather than broad themes. They require teacher direction, but invite students to participate.

Dialect Map of American English . Not all people who speak a language speak it the same way. A language can be subdivided into any number of dialects which each vary in some way from the parent language. The term, accent, is often incorrectly used in its place, but an accent refers only to the way words are pronounced, while a dialect has its own grammar, vocabulary, syntax, and common ...
